

## PLUS

Stefano Bettio designer

# PLUS

Plus is a modular seating system that allows you to meet all spatial requirements you may have.

Our focus was simplicity of composition and customization, from the single seater to the privacy Plus.

Thanks to its simplicity, its ability to be completely removable and the materials we used for the PLUS system to be circular with its material use.

The modularity of the Plus allows you to customize your spaces and enables separation of all kinds of environments in a simple functional way.

## CZ

PLUS je modulární sedací systém, který vám umožní splnit všechny vaše požadavky. Díky své flexibilitě si najde místo v každém prostoru.

Zaměřili jsme se totiž nejen na jednoduchost složení, ale také snadnou konfiguraci od 1-místného až po více-místného PRIVACY PLUS. Modulární sedací systém PLUS lze sestavit v mnoha kombinacích. Modulární sedací systém PLUS má vyjmečnou kruhovou schopnost zcela a jednoduše vyjmout materiál. A umožní vám ji sestavit tak, aby měl každý svůj prostor a mohl ho funkčně použít v jakémkoliv prostředí.

## IT

Plus è un sistema di sedute componibile che permette di soddisfare le esigenze a seconda dello spazio. Dalla seduta singola al sistema privacy Plus garantisce la semplicità di composizione e personalizzazione.

Essendo completamente smontabile e di facile smaltimento permette una importante circolarità dei materiali. La combinazione di più panche con i tavolini di connessione permette di personalizzare gli spazi e la separazione degli ambienti in modo semplice e funzionale.

# PLUS

Designing space becomes simple, from a single seat to a structure that houses 3 seats and a table, it's just a matter of space.

Plus comes in two backrest heights, two heights of armrests, a separating armrest and two sizes of tables on the internal structure. The connection between several benches takes place with the corner table.

## CZ

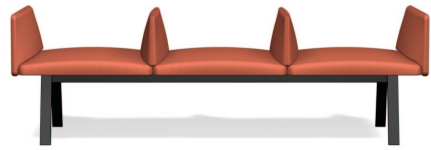

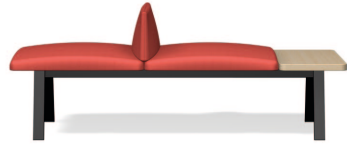

Navrhování prostoru je již jednoduché. A to od jediného sedadla po konstrukci, ve které jsou 3 místa k sezení a stůl.

Na vnitřní konstrukci PLUS systém lze vyrobit ve dvou výškách opěradel, dvou výškách područek, oddělovací područky a dvou velikostech stolu. Pomocí rohového stolu je možné spojit několik skupin konfigurací.

## IT

Progettare lo spazio diventa semplice, dalla seduta singola fino alla struttura che ospita 3 sedute ed un tavolino è solo una questione di spazi.

Plus prevede due altezze di schienali, due altezze di braccioli, un bracciolo separatore e due misure di tavoli su struttura. L'unione di più panche avviene con il tavolino angolare.

# PLUS privacy

Plus privacy represents a social and non-isolating island, the high backrest, the central console that favors the exchange of opinions, planning without disturbing the neighboring environments.

The containment design and a right choice of fabrics favor a noise reduction not only inside Plus but of the whole surrounding environment.

## CZ

PLUS privacy se skládá z neizolujícího ostrůvkustolku, vysokého opěradla, středové konzole, která podporuje komunikaci v jakémkoliv směru aniž by rušila uvnitř a i své okolí.

Právě speciálně designová konstrukce a kvalitní materiál přispívají ke snížení hluku.

## IT

Plus privacy rappresenta una isola social e non di isolamento, gli schienali alti, la console centrale favoriscono lo scambio di opinioni, file e progettualità senza disturbare gli ambienti vicini.

Il contenimento ed una giusta scelta di tessuti favoriscono un abbattimento sonoro non solo all'interno di Plus ma a tutto l'ambiente circostante.

# PLUS tables

Coffee table or multifunctional space, the coffee table is an indispensable complement.

Used as a support surface in a meeting or as a support surface for a device, low tables are always the protagonists. The Plus solution uses its coffee tables in harmony with the surroundings.

We offer round and square tables, in the up-seat version with double support surface for those who use multiple devices. Light but stable, small but strong protagonists in the lounge and the work space.

## CZ

Možnost výběru mezi konferenční stolkem nebo multifunkčním prostorem.

Konferenční stolek je nepostradatelným doplňkem prakticky všech prostorů. Nabízíme nízké stolky, které lze použít jako opěrnou plochu na jednání nebo jako opěrnou plochu pro různá zařízení.

Řešení PLUS využívá své konferenční stolky v souladu s okolím. Nabízíme kulaté a hranaté stolky ve verzi se sedadlem s dvojitou opěrnou plochou pro ty, kteří používají více zařízení. Stolky jsou lehké, ale stabilní.

Lze použít jak doma v obývacím pokoji, tak v pracovním prostředí.

## IT

Coffe table o multifunzione, il tavolino è un complemento indispensabile.

Usato come piano di appoggio in un meeting o come piano di appoggio per un device i tavoli bassi sono sempre i protagonisti.

Plus dispone di caffè table in armonia con la collezione e propone tavolini rotondi e quadrati, nella versione up-seat con doppio piano di appoggio per chi usa più device.

Leggeri ma stabili, piccoli ma protagonisti dello spazio lounge e lavoro.
